EDUCATION

Bachelors of Technology in Electronics and Communication

ABES ENGINEERING COLLEGE

08/2018 - Present

Ghaziabad, India

GPA

- 7.57 CGPA

Intermediate

ST. PAUL'S SCHOOL

04/2016 - 05/2017

Rampur, India

Percentage

- 86%

High School

ST. PAUL'S SCHOOL

04/2014 - 05/2015

Rampur, India

CGPA

- 10 CGPA

INTERNSHIPS

Student Intern at AI & Machine Learning Training Internship

IIT Indore

06/2021 - 08/2021

Rampur, India

Description

- Learned different Machine Learning concepts
- Working on a Project using Machine Learning

Student Intern in Training Internship on Problem Solving Skills using C language

CBSE

05/2019 - 05/2019

Ghaziabad, India

Description

- Learned C programming language
- Created a project called Car Parking System using C

OTHER SKILLS

Communication Skills

Team work

Leadership

SKILLS

Python

C

Django

Angular

Machine Learning

CNN

SQL

Data Structures and Algorithms

HTML

CSS

DBMS

Javascript

Logical Thinking

Problem Solving

PROJECTS

- Traffic Sign Board using Machine Learning (07/2021 - Present)
 - We used NumPy, Pandas, OS, Matplotlib, Seaborn, PIL, Tensorflow, Keras, Python, CNN, Machine Learning, and Deep Learning to create a model for the GTSRB dataset.
 - Link: <https://github.com/aameen07/GTSRB-Project-Traffic-Sign-Recognition>
- Car Parking System (05/2019 - 05/2019)
 - In this project, using the C programming language we developed features for Parking Space, Parking cars, etc.
 - Link: https://github.com/aameen07/Car_parking_system
- Arduino Keypad Calculator (08/2020 - 09/2020)
 - We used LCD and Keypad with Arduino which we programmed using C++ language.
 - Link: https://github.com/aameen07/Arduino_calculator

CERTIFICATES

Python (Basic)

from Hackerrank

Python Data Structures

from Coursera

Machine Learning

from Coursera

Developing Soft Skills and Programming for Everybody

from NPTEL

LANGUAGES

English

Full Professional Proficiency

Hindi

Native or Bilingual Proficiency

INTERESTS

Football
